The study of how living things relate to each other and their surroundings
Her research in marine ecology focuses on how coral reefs respond to warming seas.
COLLOCATIONS marine ecology; forest ecology
UPGRADE ecological (adj); ecologist (noun)

evolution
noun Band 6
эволюция

The gradual development of species over many generations
The evolution of the giraffe's long neck remains a classic example in biology textbooks.
COLLOCATIONS theory of evolution; human evolution
UPGRADE evolutionary pressure; Darwinian evolution

extinction
noun Band 6
вымирание, исчезновение

The complete disappearance of a species from the Earth
Without urgent protection, the snow leopard could be driven to the brink of extinction.
COLLOCATIONS face extinction; mass extinction
UPGRADE on the verge/brink of extinction

fauna
noun Band 7
фауна

All the animals living in a particular region or period
The fauna of the Altyn-Emel park includes rare gazelles and wild asses.
COLLOCATIONS native fauna; local fauna
UPGRADE flora and fauna; endemic fauna

flora
noun Band 7
флора

All the plants growing in a particular region or period
The tulips of the Tien Shan foothills are among the most celebrated flora of Central Asia.
COLLOCATIONS native flora; alpine flora
UPGRADE indigenous flora; flora and fauna

genetics
noun Band 7
генетика

The study of how characteristics are passed from parents to offspring
Advances in genetics have allowed farmers to breed cattle that withstand extreme cold.
COLLOCATIONS modern genetics; plant genetics
UPGRADE genetic makeup; genetic engineering

habitat
noun Band 6
среда обитания, ареал

The natural environment where a particular animal or plant lives
Urban sprawl continues to destroy the habitat of countless migratory birds.
COLLOCATIONS natural habitat; habitat loss
UPGRADE habitat fragmentation/degradation

human nature
phrase Band 6
человеческая природа

The typical qualities and behaviour shared by all people
It is simply human nature to value a forest more once it is under threat.
COLLOCATIONS part of human nature; understand human nature
UPGRADE innate human tendency; it is in our nature to…

insect
noun Band 5
насекомое

A small creature with six legs and usually wings
Many farmers now rely on beneficial insects rather than chemicals to control pests.
COLLOCATIONS insect species; insect bite
UPGRADE pollinating insects; insect-borne disease

Mother Nature
idiom Band 6
мать-природа

Nature imagined as a powerful female force controlling the natural world
No matter how advanced our technology becomes, we cannot always outwit Mother Nature.
COLLOCATIONS the forces of Mother Nature; defy Mother Nature
UPGRADE the whims of Mother Nature; at the mercy of the elements

pesticides
noun Band 7
пестициды

Chemicals used to kill insects or other pests that damage crops
Runoff containing pesticides has poisoned fish stocks in several rivers downstream.
COLLOCATIONS use pesticides; spray pesticides
UPGRADE chemical pesticides; pesticide residue

predator
noun Band 6
хищник

An animal that hunts and eats other animals
The wolf is the dominant predator across much of the northern steppe.
COLLOCATIONS top predator; natural predator
UPGRADE apex predator; predatory (adj)

prey
noun Band 7
добыча, жертва

An animal that is hunted and eaten by another animal
Eagles circle for hours before diving swiftly onto their prey.
COLLOCATIONS hunt prey; easy prey
UPGRADE fall prey to; predator-prey relationship

repercussions
noun Band 8
последствия

Serious, usually negative, effects that follow an action or event
Clearing the forest had repercussions for wildlife that nobody had anticipated.
COLLOCATIONS serious repercussions; have repercussions for
UPGRADE far-reaching repercussions; ramifications

scent
noun Band 7
запах, след (запах)

A pleasant or distinctive smell, especially one animals use to detect others
The hounds picked up the scent of the fox within minutes.
COLLOCATIONS pick up a scent; strong scent
UPGRADE follow the scent; scent marking

soil
noun Band 5
почва

The upper layer of earth in which plants grow
Decades of overgrazing have left the soil too thin to support grain crops.
COLLOCATIONS fertile soil; soil erosion
UPGRADE soil degradation; nutrient-rich soil

species
noun Band 6
вид (биологический)

A group of animals or plants that share features and can breed together
Over forty species of birds visit the lake during the spring migration.
COLLOCATIONS endangered species; invasive species
UPGRADE keystone species; species diversity

vegetation
noun Band 7
растительность

Plants in general, especially those covering a particular area
Sparse vegetation on the slopes makes the region highly prone to landslides.
COLLOCATIONS dense vegetation; sparse vegetation
UPGRADE lush vegetation; vegetation cover

vermin
noun Band 8
вредители, паразиты (крысы, мыши)

Small animals or insects regarded as harmful pests, such as rats
Grain stores must be sealed tightly to keep vermin from contaminating the harvest.
COLLOCATIONS control vermin; infested with vermin
UPGRADE pest control; vermin infestation

weed
noun Band 6
сорняк

A wild plant growing where it is not wanted
Without regular attention, the vegetable plots were soon choked by a single aggressive weed.
COLLOCATIONS pull up a weed; invasive weed
UPGRADE weed out (phrasal verb); weedkiller

arid
adj Band 7
засушливый, аридный

Having very little rain and therefore very dry
Much of southern Kazakhstan is arid, receiving less than 200 millimetres of rain a year.
COLLOCATIONS arid region; arid climate
UPGRADE arid conditions; aridity (noun)

catastrophic
adj Band 7
катастрофический

Causing sudden and very great damage or suffering
The collapse of the dam would have catastrophic consequences for villages downstream.
COLLOCATIONS catastrophic consequences; catastrophic failure
UPGRADE potentially catastrophic; catastrophe (noun)

disastrous
adj Band 6
губительный, катастрофический

Extremely bad or harmful; causing great trouble
Introducing rabbits into Australia proved disastrous for native plants.
COLLOCATIONS disastrous effects; prove disastrous
UPGRADE ruinous; with disastrous results

domesticated
adj Band 7
одомашненный, прирученный

Tamed and kept by humans as a pet or farm animal
Horses were first domesticated on the Eurasian steppe several thousand years ago.
COLLOCATIONS domesticated animals; domesticated species
UPGRADE domestication (noun); selectively bred

endangered
adj Band 6
находящийся под угрозой исчезновения

At serious risk of disappearing completely
The saiga antelope was once critically endangered but its numbers have recovered dramatically.
COLLOCATIONS endangered species; critically endangered
UPGRADE critically endangered; on the endangered list

extinct
adj Band 6
вымерший

No longer existing because the last member of the species has died
The Caspian tiger became extinct in the region during the twentieth century.
COLLOCATIONS become extinct; extinct species
UPGRADE driven extinct; functionally extinct

genetically-modified
adj Band 7
генетически модифицированный

Having genes changed artificially to produce particular characteristics
Some consumers refuse to buy genetically-modified foods despite reassurances about their safety.
COLLOCATIONS genetically-modified crops; genetically-modified organisms
UPGRADE GM produce; transgenic crops

---

introduced
adj Band 8
интродуцированный, завезённый

Brought into an area by humans rather than occurring there naturally
Introduced species such as the cane toad often have no natural enemies in their new home.
COLLOCATIONS introduced species; introduced predators
UPGRADE non-native/alien species; invasive

---

native
adj Band 6
местный, коренной

Naturally existing in a particular place rather than brought from elsewhere
Conservationists are replanting native trees along the riverbanks to prevent erosion.
COLLOCATIONS native species; native to
UPGRADE indigenous; endemic to

---

natural
adj Band 5
природный, естественный

Existing in or caused by nature, not made by people
The marshes act as a natural barrier against seasonal flooding.
COLLOCATIONS natural resources; natural habitat
UPGRADE naturally occurring; in their natural state

---

resistant
adj Band 7
устойчивый, стойкий

Not harmed or affected by something, such as disease or pests
Scientists have developed wheat varieties that are resistant to drought and frost.
COLLOCATIONS resistant to disease; drought-resistant
UPGRADE pest-resistant strains; resilient

---

semi-arid
adj Band 8
полузасушливый

Having little rain, but not as dry as a desert
The semi-arid grasslands support grazing but are unsuitable for most crops.
COLLOCATIONS semi-arid region; semi-arid climate
UPGRADE semi-arid steppe; marginal land

---

tropical
adj Band 5
тропический

Belonging to the hot, humid regions near the equator
Tropical rainforests contain more than half of the world's plant and animal species.
COLLOCATIONS tropical rainforest; tropical climate
UPGRADE tropical biodiversity; sub-tropical

---

vulnerable
adj Band 6
уязвимый

Easily harmed or damaged physically or emotionally
Coastal ecosystems are particularly vulnerable to rising sea levels.
COLLOCATIONS vulnerable to attack; vulnerable species
UPGRADE highly vulnerable; vulnerability (noun)

---

wild
adj Band 5
дикий

Living or growing naturally, not controlled or cared for by people
Wild horses still roam parts of the Mongolian steppe.
COLLOCATIONS wild animals; in the wild
UPGRADE untamed; survive in the wild

adapt
verb Band 6
адаптироваться, приспосабливаться

To change in order to suit new conditions
Desert foxes have adapted to the heat by developing enormous ears that release warmth.
COLLOCATIONS adapt to; adapt quickly
UPGRADE adaptation (noun); adaptable (adj)

combat
verb Band 7
бороться с, противодействовать

To take action to reduce or stop something harmful
Authorities are planting shelter belts of trees to combat desertification.
COLLOCATIONS combat climate change; combat poaching
UPGRADE tackle; take measures to combat

cultivate
verb Band 7
возделывать, выращивать

To prepare land and grow crops on it
Farmers in the region have cultivated cotton on irrigated land for generations.
COLLOCATIONS cultivate land; cultivate crops
UPGRADE cultivation (noun); cultivate a relationship (figurative)

eradicate
verb Band 8
искоренять, уничтожать

To destroy or remove something completely
The project aims to eradicate invasive rats from the island within five years.
COLLOCATIONS eradicate disease; eradicate pests
UPGRADE eradication (noun); stamp out

evolve
verb Band 6
эволюционировать, развиваться

To develop gradually over a long period of time
Whales evolved from land mammals that returned to the sea millions of years ago.
COLLOCATIONS evolve from; evolve over time
UPGRADE evolve into; constantly evolving

hibernate
verb Band 7
впадать в спячку

To spend the winter in a deep sleep
Brown bears hibernate for up to six months in the Siberian taiga.
COLLOCATIONS hibernate through the winter; hibernate in caves
UPGRADE hibernation (noun); go into hibernation

tolerate
verb Band 7
переносить, выдерживать

To be able to survive difficult conditions without harm
Camels can tolerate extreme heat and go for days without drinking water.
COLLOCATIONS tolerate extreme temperatures; tolerate drought
UPGRADE tolerance (noun); withstand

10. Space and flight

57 words

asteroid
noun Band 7
астероид

A small rocky object that orbits the Sun
An asteroid impact is widely believed to have wiped out the dinosaurs.
COLLOCATIONS asteroid impact; asteroid belt
UPGRADE near-Earth asteroid; asteroid deflection

astronaut
noun Band 5
астронавт, космонавт

A person trained to travel and work in space
The astronaut spent six months aboard the orbiting laboratory conducting experiments.
COLLOCATIONS trained astronaut; astronaut training
UPGRADE crew member; spacewalk

atmosphere
noun Band 6
атмосфера

The layer of gases surrounding a planet
Debris burns up as it re-enters the Earth's atmosphere at tremendous speed.
COLLOCATIONS the Earth's atmosphere; upper atmosphere
UPGRADE atmospheric (adj); atmospheric pressure

cosmos
noun Band 8
космос, вселенная

The universe considered as an ordered and complex whole
Ancient astronomers sought to understand humanity's place in the cosmos.
COLLOCATIONS the vastness of the cosmos; explore the cosmos
UPGRADE cosmology (noun); cosmic (adj)

crater
noun Band 7
кратер

A large round hole in the ground made by an impact or explosion
The crater left by the meteorite is over a kilometre wide.
COLLOCATIONS impact crater; volcanic crater
UPGRADE crater-pocked surface; lunar crater

debris
noun Band 7
обломки, мусор

Broken pieces left after something has been destroyed
Thousands of fragments of space debris now threaten working satellites.
COLLOCATIONS space debris; scattered debris
UPGRADE orbital debris; clear the debris

Earth
noun Band 5
Земля

The planet on which we live
Earth is the only planet known to support complex life.
COLLOCATIONS planet Earth; orbit the Earth
UPGRADE Earth-like planets; Earth-observation satellites

exploration
noun Band 6
исследование, освоение

The act of travelling through an unknown place to learn about it
Space exploration has produced technologies we now use every day, from GPS to water filters.
COLLOCATIONS space exploration; deep-sea exploration
UPGRADE exploratory (adj); exploration programme

explorer
noun Band 6
исследователь, первооткрыватель

A person who travels to unknown places to discover them
The robotic explorer transmitted detailed images of the Martian surface.
COLLOCATIONS polar explorer; early explorers
UPGRADE pioneer; intrepid explorer

galaxy
noun Band 7
галактика

A huge system of stars, gas and dust held together by gravity
Our galaxy, the Milky Way, contains hundreds of billions of stars.
COLLOCATIONS distant galaxy; spiral galaxy
UPGRADE galactic (adj); neighbouring galaxy

gas
noun Band 5
газ

A substance like air that is neither solid nor liquid
Jupiter is largely composed of gas, with no solid surface to land on.
COLLOCATIONS greenhouse gas; toxic gas
UPGRADE gas giant; gaseous (adj)

gravity
noun Band 6
гравитация, сила тяжести

The force that pulls objects towards each other, especially towards a planet
On the Moon, gravity is about one sixth as strong as on Earth.
COLLOCATIONS zero gravity; force of gravity
UPGRADE gravitational pull; defy gravity

horizon
noun Band 6
горизонт

The line where the land or sea seems to meet the sky
From the space station, astronauts watch sixteen sunrises a day over the horizon.
COLLOCATIONS on the horizon; distant horizon
UPGRADE broaden your horizons (idiom); on the horizon (in future)

launch
noun Band 6
запуск

The act of sending a rocket or spacecraft into the air
The launch was postponed twice because of high winds at Baikonur.
COLLOCATIONS rocket launch; launch pad
UPGRADE launch window; successful launch

meteor
noun Band 7
метеор

A piece of rock from space that burns brightly entering Earth's atmosphere
A meteor streaked across the night sky, leaving a trail of light behind it.
COLLOCATIONS meteor shower; meteor strike
UPGRADE meteorite (noun); meteoric (adj)

moon
noun Band 5
луна, спутник

A natural object that orbits a planet
Saturn has more than a hundred known moons, some possibly containing liquid water.
COLLOCATIONS full moon; land on the moon
UPGRADE lunar (adj); natural satellite

ocean
noun Band 5
океан

One of the very large areas of salt water covering most of Earth
Some scientists believe a hidden ocean lies beneath the ice of Jupiter's moon Europa.
COLLOCATIONS Pacific Ocean; ocean floor
UPGRADE oceanic (adj); ocean currents

orbit
noun Band 7
орбита

The curved path of an object moving around a planet or star
The satellite was placed in a low orbit just 400 kilometres above the ground.
COLLOCATIONS in orbit; low Earth orbit
UPGRADE geostationary orbit; orbital (adj)

outer space
phrase Band 6
открытый космос

The area beyond the Earth's atmosphere
Signals sent into outer space may take thousands of years to reach another civilisation.
COLLOCATIONS into outer space; from outer space
UPGRADE the cosmos; deep space

planet
noun Band 5
планета

A large round object that moves around a star
Astronomers have identified thousands of planet candidates orbiting distant stars.
COLLOCATIONS distant planet; habitable planet
UPGRADE exoplanet; planetary (adj)

radiation
noun Band 7
радиация, излучение

Energy sent out as waves or particles, often harmful to living things
Long missions expose crew members to dangerous levels of cosmic radiation.
COLLOCATIONS exposure to radiation; solar radiation
UPGRADE radiation shielding; ionising radiation

rocket
noun Band 5
ракета

A vehicle propelled by burning fuel, used to travel into space
The reusable rocket landed upright on a platform at sea after delivering its cargo.
COLLOCATIONS launch a rocket; rocket engine
UPGRADE rocket science; booster rocket

satellite
noun Band 6
спутник

An object sent into space to orbit Earth and collect or send information
Weather satellites help farmers anticipate frosts and droughts weeks in advance.
COLLOCATIONS communications satellite; satellite imagery
UPGRADE satellite navigation; launch a satellite

simulator
noun Band 7
тренажёр, симулятор

A machine that imitates real conditions for training purposes
Pilots spend hundreds of hours in a flight simulator before flying passengers.
COLLOCATIONS flight simulator; training simulator
UPGRADE simulation (noun); simulate (verb)

solar system
noun Band 6
Солнечная система

The Sun and all the planets and objects that move around it
Jupiter is by far the largest planet in our solar system.
COLLOCATIONS our solar system; outer solar system
UPGRADE planetary system; beyond the solar system

space
noun Band 5
космос, космическое пространство

The area beyond Earth's atmosphere where stars and planets exist
Yuri Gagarin became the first human to travel into space in 1961.
COLLOCATIONS travel into space; space travel
UPGRADE deep space; space tourism

spacecraft
noun Band 6
космический корабль, космический аппарат

A vehicle designed to travel in space
The unmanned spacecraft took nearly seven years to reach Saturn.
COLLOCATIONS manned spacecraft; robotic spacecraft
UPGRADE space probe; dock with a spacecraft

space shuttle
noun Band 6
космический челнок, шаттл

A reusable spacecraft that carried crews between Earth and orbit
The space shuttle programme ended in 2011 after thirty years of missions.
COLLOCATIONS space shuttle programme; space shuttle mission
UPGRADE reusable launch vehicle; orbiter

space station
noun Band 6
космическая станция

A large spacecraft orbiting Earth where crews live and work
Crews aboard the space station grow lettuce to study farming in microgravity.
COLLOCATIONS International Space Station; orbiting space station
UPGRADE orbital laboratory; dock with the space station

surface
noun Band 6
поверхность

The outer or top layer of something
The surface of Venus is hot enough to melt lead.
COLLOCATIONS lunar surface; planet's surface
UPGRADE beneath the surface; scratch the surface (idiom)

universe
noun Band 6
вселенная

Everything that exists, including all stars, planets and space
Many physicists believe the universe is still expanding at an accelerating rate.
COLLOCATIONS the observable universe; expanding universe
UPGRADE the cosmos; universal (adj)

weightlessness
noun Band 8
невесомость

The state of having no apparent weight, as in orbit
Prolonged weightlessness causes astronauts to lose bone density and muscle mass.
COLLOCATIONS experience weightlessness; effects of weightlessness
UPGRADE microgravity; zero gravity

commercial
adj Band 6
коммерческий

Relating to business and making a profit
Commercial companies now launch more satellites than government agencies.
COLLOCATIONS commercial flights; commercial space travel
UPGRADE commercially viable; commercialisation

cosmic
adj Band 8
космический

Relating to the universe or space; sometimes meaning extremely large
Cosmic rays from distant exploding stars constantly bombard our planet.
COLLOCATIONS cosmic rays; cosmic dust
UPGRADE of cosmic proportions; cosmic scale

extreme
adj Band 6
экстремальный, крайний

Very great in degree, or very severe
Equipment on Mars must survive extreme temperature swings between day and night.
COLLOCATIONS extreme conditions; extreme temperatures
UPGRADE extremely hostile; in the extreme

gravitational
adj Band 8
гравитационный

Relating to the force of gravity
The Moon's gravitational pull is responsible for the ocean tides.
COLLOCATIONS gravitational pull; gravitational force
UPGRADE gravitational field; gravitational waves

horizontal
adj Band 6
горизонтальный

Flat and level, parallel to the ground
The rocket is moved to the launch pad in a horizontal position before being raised upright.
COLLOCATIONS horizontal line; horizontal position
UPGRADE horizontally (adv); vertical (opposite)

inevitable
adj Band 7
неизбежный

Certain to happen and impossible to avoid
Some experts argue that human settlement on Mars is inevitable within this century.
COLLOCATIONS seem inevitable; almost inevitable
UPGRADE inevitably (adv); an inevitable consequence

lunar
adj Band 8
лунный

Relating to the Moon
The lunar landing in 1969 was watched by an estimated 600 million people.
COLLOCATIONS lunar surface; lunar mission
UPGRADE lunar orbit; lunar eclipse

meteoric
adj Band 8
стремительный; метеорный

Very fast and successful; relating to meteors
The company's meteoric rise has made it a leading supplier of launch services.
COLLOCATIONS meteoric rise; meteoric career
UPGRADE a meteoric ascent; rapid rise to prominence

outer
adj Band 6
внешний

Farther from the centre or inside
Probes have now reached the outer edges of the solar system.
COLLOCATIONS outer edge; outer planets
UPGRADE outermost (adj); outer layer

solar
adj Band 6
солнечный

Relating to or powered by the Sun
The probe is powered entirely by solar panels that unfold once in orbit.
COLLOCATIONS solar energy; solar panels
UPGRADE solar-powered; solar flare

terrestrial
adj Band 8
земной, наземный

Relating to the Earth or living on land
Engineers must design rovers for conditions very different from any terrestrial environment.
COLLOCATIONS terrestrial life; terrestrial planets
UPGRADE extraterrestrial (adj/noun); terrestrial ecosystems

toxic
adj Band 6
токсичный, ядовитый

Poisonous and harmful to living things
The atmosphere of Venus is thick with toxic clouds of sulphuric acid.
COLLOCATIONS toxic chemicals; toxic waste
UPGRADE highly toxic; toxicity (noun)

uninhabitable
adj Band 8
непригодный для жизни

Not suitable for people or animals to live in
Without terraforming, Mars will remain uninhabitable for humans.
COLLOCATIONS render uninhabitable; uninhabitable planet
UPGRADE hostile to life; inhabitable (opposite)

universal
adj Band 7
всеобщий, универсальный

Affecting or done by everyone or everything
The laws of physics are thought to be universal, applying equally across the cosmos.
COLLOCATIONS universal agreement; universal truth
UPGRADE universally accepted; universality

---

unmanned
adj Band 7
беспилотный

Operated without a human crew on board
Unmanned missions are far cheaper and less risky than sending astronauts.
COLLOCATIONS unmanned mission; unmanned probe
UPGRADE uncrewed; robotic mission

---

acclimatise
verb Band 8
акклиматизироваться

To become used to a new climate or environment
Astronauts need several days to acclimatise to gravity after returning to Earth.
COLLOCATIONS acclimatise to; fully acclimatise
UPGRADE acclimatisation (noun); adjust gradually

---

colonise
verb Band 7
колонизировать, заселять

To settle in a new place and establish a community there
Several billionaires have announced plans to colonise Mars within decades.
COLLOCATIONS colonise a planet; colonise new territory
UPGRADE colonisation (noun); establish a settlement

---

explore
verb Band 5
исследовать

To travel through an unknown place to learn about it
Robotic rovers continue to explore the Martian surface for signs of ancient life.
COLLOCATIONS explore space; explore the possibility
UPGRADE investigate; explore in depth

---

float
verb Band 5
плавать, парить

To move gently or rest on a liquid or in the air without sinking
In orbit, unsecured objects float freely around the cabin.
COLLOCATIONS float freely; float in the air
UPGRADE drift; float in zero gravity

---

orbit
verb Band 7
вращаться по орбите

To move in a curved path around a planet or star
The International Space Station orbits the Earth roughly every ninety minutes.
COLLOCATIONS orbit the Earth; orbit the Sun
UPGRADE orbital (adj); in geostationary orbit

---

propel
verb Band 8
приводить в движение, толкать

To push or drive something forward with force
Powerful engines propel the rocket beyond the atmosphere in under ten minutes.
COLLOCATIONS propel forward; propel into space
UPGRADE propulsion (noun); propel someone to fame (figurative)

---

rotate
verb Band 6
вращаться

To turn around a central point or axis
The Earth rotates on its axis once every twenty-four hours.
COLLOCATIONS rotate on its axis; rotate slowly
UPGRADE rotation (noun); rotational speed

sustain

verb Band 7

поддерживать, обеспечивать

To provide what is needed to keep something alive or continuing

No planet yet discovered appears able to sustain human life without technology.

COLLOCATIONS sustain life; sustain growth

UPGRADE sustainable (adj); sustain momentum

---

simulate

verb Band 7

имитировать, моделировать

To create conditions that imitate something real

Underwater tanks are used to simulate the experience of working in microgravity.

COLLOCATIONS simulate conditions; simulate an emergency

UPGRADE simulation (noun); computer-simulated

---

undergo

verb Band 7

проходить, подвергаться

To experience something, especially a process or change

Every candidate must undergo rigorous medical and psychological testing.

COLLOCATIONS undergo training; undergo surgery

UPGRADE undergo a transformation; be subjected to

---

11. Design and invention

74 words

balcony
noun Band 5
балкон

A platform with a rail outside an upper window of a building.

The flat's south-facing balcony offers sweeping views across the river, which considerably raises its market value.

COLLOCATIONS a private balcony; a balcony overlooking the park

UPGRADE terrace; a wrap-around balcony

brick
noun Band 5
кирпич

A hard rectangular block of baked clay used for building walls.

Red brick remains a popular material for suburban housing because it is durable and needs little maintenance.

COLLOCATIONS red brick; a brick wall

UPGRADE brickwork; masonry

building
noun Band 5
здание

A structure with walls and a roof, such as a house or office.

The council has pledged to restore any building of historical significance rather than replace it with offices.

COLLOCATIONS a listed building; a public building

UPGRADE edifice; an iconic building

ceiling
noun Band 5
потолок

The upper inner surface of a room.

High ceilings make even a modest apartment feel light and airy, although they increase heating costs.

COLLOCATIONS high ceilings; a vaulted ceiling

UPGRADE a vaulted ceiling; (figurative) a glass ceiling

concrete
noun Band 6
бетон

A strong building material made from cement, sand, stones and water.

Critics argue that the city centre has become a soulless jungle of concrete and glass.

COLLOCATIONS reinforced concrete; concrete blocks

UPGRADE reinforced concrete; a concrete jungle

construction
noun Band 6
строительство

The process or industry of building houses, roads and other structures.

Construction of the new stadium was delayed by eighteen months owing to a shortage of skilled labour.

COLLOCATIONS under construction; the construction industry

UPGRADE a construction boom; be under construction

cottage
noun Band 6
небольшой загородный (деревенский) дом

A small, usually old, house in the countryside.

They converted a derelict stone cottage into a holiday let while preserving its original oak beams.

COLLOCATIONS a country cottage; a thatched cottage

UPGRADE a quaint cottage; a picturesque cottage

design
noun Band 5
дизайн, проект, конструкция

The way something is planned and made, including its appearance and function.
The building's innovative design allows natural light to reach every floor, cutting energy use dramatically.
COLLOCATIONS a sleek design; a design flaw
UPGRADE a fundamental design flaw; ergonomic design

device
noun Band 6
устройство, прибор

A machine or tool made for a particular purpose.
This ingenious device converts the energy of footsteps into electricity for street lighting.
COLLOCATIONS a safety device; an electronic device
UPGRADE an ingenious device; a labour-saving device

elevator
noun Band 5
лифт

A machine carrying people between floors of a building (American English).
Without the invention of the safety elevator, the modern skyscraper would never have been practical.
COLLOCATIONS take the elevator; a passenger elevator
UPGRADE British equivalent: lift; an elevator shaft

engineering
noun Band 6
инженерное дело, машиностроение

Using science to design and build machines, structures and systems.
The bridge is widely regarded as a triumph of engineering, spanning almost two kilometres without central supports.
COLLOCATIONS civil engineering; a feat of engineering
UPGRADE a remarkable feat of engineering; structural engineering

frame
noun Band 6
каркас, рама

The basic structure that supports a building or object.
The steel frame was erected in just six weeks, after which the glass panels were fitted.
COLLOCATIONS a steel frame; a timber frame
UPGRADE framework; timber-framed (adj)

gadget
noun Band 6
гаджет, приспособление

A small, clever tool or device, often electronic.
Consumers are increasingly sceptical of any gadget that promises convenience but quickly becomes obsolete.
COLLOCATIONS a kitchen gadget; the latest gadget
UPGRADE a must-have gadget; gimmick

housing
noun Band 6
жильё

Buildings that people live in, considered as a whole.
The government has committed to providing affordable housing for young families in rapidly growing cities.
COLLOCATIONS affordable housing; social housing
UPGRADE a chronic housing shortage; housing stock

innovation
noun Band 6
инновация, нововведение

A new idea, method or product, or the process of creating one.
Technological innovation in the construction sector has significantly reduced both costs and build times.
COLLOCATIONS technological innovation; foster innovation
UPGRADE foster/stifle innovation; groundbreaking innovation

invention
noun Band 5
изобретение

Something newly created, or the act of creating it for the first time.
The invention of reinforced concrete transformed what architects believed was structurally possible.
COLLOCATIONS a brilliant invention; the invention of the printing press
UPGRADE a groundbreaking invention; inventive (adj)

landmark
noun Band 6
достопримечательность, ориентир

A famous building or feature that helps people recognise a place.
The Baiterek tower has become the most recognisable landmark in Astana since its completion.
COLLOCATIONS a historic landmark; a local landmark
UPGRADE an iconic landmark; (figurative) a landmark decision

lift shaft
noun Band 7
шахта лифта

The vertical passage in a building through which a lift travels.
Engineers placed the lift shaft at the core of the tower to strengthen it against high winds.
COLLOCATIONS a central lift shaft; fall down a lift shaft
UPGRADE service core; elevator shaft (US)

occupant
noun Band 7
жилец, житель; находящийся в помещении

A person who lives in or uses a building, room or vehicle.
The previous occupant had neglected the house, so extensive repairs were needed before we moved in.
COLLOCATIONS the previous occupant; occupants of the building
UPGRADE occupancy (n); owner-occupier

platform
noun Band 6
платформа, площадка

A raised flat surface on which people or things can stand.
A viewing platform on the fiftieth floor gives visitors a panoramic view of the city.
COLLOCATIONS a viewing platform; a railway platform
UPGRADE (figurative) a platform for debate; elevated platform

quarry
noun Band 7
карьер, каменоломня

A large open pit from which stone is dug out of the ground.
The limestone for the cathedral was cut from a quarry only a few kilometres away.
COLLOCATIONS a stone quarry; a disused quarry
UPGRADE to quarry stone (verb); quarrying (n)

residence
noun Band 7
резиденция, место жительства

A house or place where someone lives, often large or official.
The former governor's residence has been converted into a museum of regional history.
COLLOCATIONS an official residence; a private residence
UPGRADE take up residence; residential (adj)

skyscraper
noun Band 5
небоскрёб

A very tall modern building, usually in a city.

UPGRADE curb/slash emissions; zero-emission vehicles

the environment
noun Band 5
окружающая среда

The natural world of land, water, air, plants and animals.
Industrial expansion should not come at the expense of the environment on which future generations depend.
COLLOCATIONS protect the environment; harm/damage the environment
UPGRADE inflict irreversible damage on the natural environment

erosion
noun Band 7
эрозия, разрушение

The gradual wearing away of land by wind, water or ice.
Overgrazing has accelerated soil erosion, turning once-fertile pastures into dusty plains.
COLLOCATIONS soil/coastal erosion; prevent erosion
UPGRADE erosion of trust/rights (figurative use)

exhaust fumes
noun Band 6
выхлопные газы

Waste gases released from an engine, especially a car's.
In congested city centres, exhaust fumes from idling traffic are a leading cause of respiratory illness.
COLLOCATIONS car exhaust; inhale exhaust fumes
UPGRADE vehicular emissions; tailpipe emissions

fertilizer
noun Band 6
удобрение

A natural or chemical substance added to soil to help plants grow.
Excessive use of nitrogen fertilizer can leach into rivers and trigger toxic algal blooms.
COLLOCATIONS chemical/organic fertilizer; apply fertilizer
UPGRADE agrochemical run-off

flood
noun Band 5
наводнение, паводок

A large amount of water covering land that is normally dry.
The spring flood of 2024 forced thousands of residents in the region to abandon their homes.
COLLOCATIONS flash flood; flood defences
UPGRADE inundation; flood-prone areas

food chain
noun Band 6
пищевая цепь

A series of living things, each eaten by the next.
Microplastics swallowed by plankton gradually make their way up the food chain to humans.
COLLOCATIONS at the top of the food chain; enter the food chain
UPGRADE food web; bioaccumulation

fumes
noun Band 6
пары, испарения, дым

Strong-smelling, often harmful smoke or gas.
Workers in the paint factory complained of dizziness after inhaling toxic fumes for hours.
COLLOCATIONS toxic/noxious fumes; diesel fumes
UPGRADE noxious fumes; fume-filled air

greenhouse gases
noun Band 6
парниковые газы

Gases, such as carbon dioxide, that trap heat in the atmosphere.
Agriculture, particularly livestock farming, is a major yet often overlooked source of greenhouse gases.
COLLOCATIONS emit/reduce greenhouse gases; greenhouse gas emissions
UPGRADE the greenhouse effect; carbon footprint

impact
noun Band 5
воздействие, влияние

A strong effect that something has on someone or something.
The long-term impact of mining on local water supplies has rarely been properly assessed.
COLLOCATIONS have an impact on; environmental impact
UPGRADE a profound/detrimental impact; environmental impact assessment

pollutant
noun Band 7
загрязняющее вещество, загрязнитель

A substance that makes air, water or soil dirty or harmful.
Fine particulate matter is arguably the most dangerous airborne pollutant in industrial cities.
COLLOCATIONS major pollutant; airborne/industrial pollutant
UPGRADE persistent organic pollutants; contaminant

pollution
noun Band 5
загрязнение (окружающей среды)

Damage to air, water or land caused by harmful substances.
Air pollution in Almaty peaks during winter, when coal heating and temperature inversions combine.
COLLOCATIONS air/water pollution; reduce pollution
UPGRADE curb pollution levels; pollution-related illness

process
noun Band 5
процесс

A series of actions or changes that lead to a result.
Recycling aluminium is an energy-efficient process compared with extracting the metal from raw ore.
COLLOCATIONS manufacturing process; a gradual process
UPGRADE an irreversible/labour-intensive process; streamline a process

refuse
noun Band 7
мусор, отходы

Household or commercial rubbish that is thrown away.
The council has struggled to manage the growing mountains of refuse left uncollected during the strike.
COLLOCATIONS refuse collection; household refuse
UPGRADE municipal solid waste; refuse disposal

strain
noun Band 7
нагрузка, давление, напряжение

Pressure placed on something that may damage it or reduce its ability.
Rapid urban growth has put an enormous strain on the city's water and sewage systems.
COLLOCATIONS put a strain on; under strain
UPGRADE place considerable strain on finite resources

threat
noun Band 5
угроза

Something or someone likely to cause harm or danger.
Rising sea levels pose an existential threat to low-lying island nations in the Pacific.
COLLOCATIONS pose a threat; a serious/growing threat
UPGRADE an existential/imminent threat

waste
noun Band 5
отходы

Unwanted material left after something has been used or produced.
Far too much plastic waste ends up in landfill rather than being sorted for recycling.
COLLOCATIONS hazardous/toxic waste; household waste
UPGRADE zero-waste policy; waste management infrastructure

achievable
adj Band 6
достижимый

Possible to do or reach with effort.
Halving emissions by 2035 is ambitious but entirely achievable with sustained political will.
COLLOCATIONS achievable goal/target; realistically achievable
UPGRADE attainable; within reach

advantageous
adj Band 7
выгодный, благоприятный

Giving a benefit or a better position.
Kazakhstan's vast open steppe is highly advantageous for large-scale wind farms.
COLLOCATIONS mutually advantageous; advantageous position
UPGRADE advantageous to/for; confer an advantage

at risk
phrase Band 6
под угрозой, в опасности

In a situation where harm or loss is possible.
Without stricter fishing quotas, sturgeon in the Caspian Sea remain seriously at risk.
COLLOCATIONS at risk of extinction; put something at risk
UPGRADE jeopardise; vulnerable to

beneficial
adj Band 6
полезный, благотворный

Having a good or helpful effect.
Planting hedgerows has proved beneficial both for farmers and for pollinating insects.
COLLOCATIONS mutually beneficial; beneficial effect
UPGRADE conducive to; salutary

chronic
adj Band 7
хронический, постоянный

Lasting a long time and difficult to solve or cure.
Many developing cities suffer from chronic water shortages that worsen every summer.
COLLOCATIONS chronic shortage; chronic illness
UPGRADE endemic; persistent and deep-rooted

conceivable
adj Band 8
мыслимый, вообразимый

Possible to imagine or believe.
It is conceivable that some coastal cities will have to be relocated within this century.
COLLOCATIONS every conceivable way; it is conceivable that
UPGRADE conceivably (adv); inconceivable

contaminated
adj Band 7
загрязнённый, заражённый

Made dirty or poisonous by harmful substances.
Residents were warned not to drink contaminated well water after the pipeline leak.
COLLOCATIONS contaminated water/soil; heavily contaminated
UPGRADE contaminated with heavy metals; uncontaminated

devastating
adj Band 6
разрушительный, опустошительный

Causing very great damage or shock.
The wildfires had a devastating effect on both wildlife and local livelihoods.
COLLOCATIONS devastating effect/impact; devastating consequences
UPGRADE catastrophic; cataclysmic

doubtful
adj Band 6
сомнительный, маловероятный

Unlikely to happen or uncertain to be true.
It is doubtful whether voluntary pledges alone will persuade industry to cut emissions.
COLLOCATIONS it is doubtful whether; highly doubtful
UPGRADE questionable; open to doubt

environmental
adj Band 5
экологический, связанный с окружающей средой

Relating to the natural world and its protection.
Any new mining licence should depend on a rigorous environmental assessment.
COLLOCATIONS environmental damage; environmental protection
UPGRADE environmental degradation; environmentalist (noun)

environmentally friendly
adj Band 6
экологичный, безвредный для окружающей среды

Not harmful to the natural world.
Consumers are increasingly willing to pay more for environmentally friendly packaging.
COLLOCATIONS environmentally friendly products/alternatives
UPGRADE eco-conscious; low-impact

feasible
adj Band 7
осуществимый, выполнимый

Possible and practical to do.
Engineers doubt whether a high-speed rail link across the steppe is economically feasible.
COLLOCATIONS technically/economically feasible; a feasible option
UPGRADE feasibility study (noun)

fruitless
adj Band 8
бесплодный, безрезультатный

Producing no useful result despite effort.
After years of fruitless negotiations, the two countries finally agreed on shared water quotas.
COLLOCATIONS fruitless search/attempt; prove fruitless
UPGRADE to no avail; abortive

futile
adj Band 8
тщетный, бесполезный

Having no chance of success; pointless.
Local clean-ups may seem futile while factories upstream continue to dump waste.
COLLOCATIONS futile attempt; ultimately futile
UPGRADE futility (noun); an exercise in futility

immune
adj Band 7
невосприимчивый, неподверженный

Not affected by something, or protected from it.
No country, however wealthy, is immune to the consequences of a warming planet.
COLLOCATIONS immune to/from; largely immune
UPGRADE immunity (noun); impervious to

impracticable
adj Band 8
неосуществимый, невыполнимый

Impossible to carry out in practice.
Banning all private cars overnight would be impracticable in a city with poor public transport.
COLLOCATIONS impracticable scheme; prove impracticable
UPGRADE unworkable; unrealistic in practice

improbable
adj Band 7
маловероятный, неправдоподобный

Not likely to happen or be true.
It seems improbable that the glacier will recover even if temperatures stabilise.
COLLOCATIONS highly improbable; improbable scenario
UPGRADE improbability (noun); far-fetched

in danger of
phrase Band 5
под угрозой (чего-либо), в опасности

Likely to suffer harm, loss or a bad situation.
The Aral Sea region was once in danger of losing its entire fishing industry.
COLLOCATIONS in danger of extinction; in grave danger
UPGRADE on the brink of; under threat of

insoluble
adj Band 8
неразрешимый; нерастворимый

Impossible to solve; or unable to dissolve in liquid.
The problem of plastic in the oceans is daunting, but it is not insoluble.
COLLOCATIONS insoluble problem; insoluble in water
UPGRADE intractable; insurmountable

irreparable
adj Band 8
непоправимый, невосполнимый

Too badly damaged to be repaired or put right.
Oil spills can cause irreparable damage to fragile coastal habitats.
COLLOCATIONS irreparable damage/harm; irreparable loss
UPGRADE irreparably (adv); beyond repair

irreplaceable
adj Band 7
незаменимый, невосполнимый

Too valuable or unique to be replaced.
Ancient forests are irreplaceable, since new plantations cannot reproduce their complexity.
COLLOCATIONS irreplaceable habitat; irreplaceable resource
UPGRADE priceless; unique and irreplaceable heritage

irreversible
adj Band 7
необратимый

Impossible to change back to a previous state.
Scientists warn that the melting of permafrost may soon become irreversible.
COLLOCATIONS irreversible damage; irreversible change
UPGRADE irreversibly (adv); a point of no return

liable
adj Band 8
подверженный, склонный; несущий ответственность

Likely to do or suffer something; legally responsible.
Low-lying farmland is liable to flooding whenever the river breaks its banks.
COLLOCATIONS liable to flooding; liable for damages
UPGRADE liability (noun); held liable for pollution

life-threatening
adj Band 6
опасный для жизни

Serious enough to possibly cause death.
Extreme heatwaves can be life-threatening for the elderly and those with heart conditions.
COLLOCATIONS life-threatening condition/illness; potentially life-threatening
UPGRADE fatal; potentially lethal

pervasive
adj Band 8
всепроникающий, повсеместный

Spreading widely and present everywhere, often in a negative way.
Microplastics are now so pervasive that they have been detected in Arctic snow.
COLLOCATIONS pervasive influence; increasingly pervasive
UPGRADE ubiquitous; pervasiveness (noun)

pointless
adj Band 6
бессмысленный, бесполезный

Having no purpose or useful result.
Some argue that individual recycling is pointless unless major corporations change their practices.
COLLOCATIONS utterly pointless; seem/feel pointless
UPGRADE futile; serves no purpose

pristine
adj Band 8
нетронутый, первозданный

In its original, unspoilt and perfectly clean condition.
Tourists flock to Lake Kolsai for its pristine waters and untouched mountain scenery.
COLLOCATIONS pristine wilderness; pristine condition
UPGRADE unspoilt; untouched by human activity

questionable
adj Band 7
сомнительный, спорный

Doubtful, or possibly not honest or correct.
The environmental benefits of some carbon-offset schemes are highly questionable.
COLLOCATIONS highly questionable; questionable claims
UPGRADE dubious; debatable

recyclable
adj Band 6
пригодный для переработки

Able to be processed and used again.
Although the bottles are technically recyclable, few local facilities can actually process them.
COLLOCATIONS fully recyclable; recyclable materials
UPGRADE biodegradable; compostable

sustainable
adj Band 6
устойчивый, экологически рациональный

Able to continue long-term without damaging the environment.
The government aims to make agriculture more sustainable by reducing water waste.
COLLOCATIONS sustainable development; sustainable energy
UPGRADE sustainability (noun); environmentally sustainable practices

taxing
adj Band 7
утомительный, изнурительный, трудный

Demanding a lot of physical or mental effort.
Coordinating a national recycling programme proved more taxing than officials had anticipated.
COLLOCATIONS physically/mentally taxing; a taxing task
UPGRADE arduous; gruelling

unattainable
adj Band 8
недостижимый

Impossible to achieve or reach.
Critics claim the 2050 net-zero target is unattainable without nuclear power.
COLLOCATIONS unattainable goal/target; seemingly unattainable
UPGRADE out of reach; unrealistic

unlikely
adj Band 5
маловероятный

Not expected to happen or be true.
It is unlikely that electric cars will replace petrol vehicles in rural areas within a decade.
COLLOCATIONS highly unlikely; it is unlikely that
UPGRADE improbable; remote possibility

unprecedented
adj Band 7
беспрецедентный

Never having happened or existed before.
The region experienced unprecedented temperatures, breaking records set over a century ago.
COLLOCATIONS unprecedented scale/level; on an unprecedented scale
UPGRADE without precedent; record-breaking

useless
adj Band 5
бесполезный

Not useful or effective in any way.
Flood barriers built in the 1970s are now almost useless against today's storm surges.
COLLOCATIONS completely useless; useless against
UPGRADE ineffectual; obsolete

viable
adj Band 7
жизнеспособный, осуществимый

Able to work successfully or survive.
Solar power has become a commercially viable alternative to coal in southern Kazakhstan.
COLLOCATIONS viable alternative/option; economically viable
UPGRADE viability (noun); a viable proposition

vital
adj Band 6
жизненно важный

Extremely important or necessary.
Wetlands play a vital role in filtering water and preventing floods.
COLLOCATIONS play a vital role; vital importance
UPGRADE indispensable; of paramount importance

worthwhile
adj Band 6
стоящий, целесообразный

Deserving the time, money or effort spent on it.
Insulating older buildings is a worthwhile investment that pays for itself within a few years.
COLLOCATIONS worthwhile investment; well worthwhile
UPGRADE cost-effective; rewarding

confront
verb Band 7
противостоять, столкнуться (с проблемой)

To deal with a difficult problem directly.
World leaders must confront the uncomfortable truth that economic growth carries environmental costs.
COLLOCATIONS confront a problem/challenge; confront the issue head-on
UPGRADE confrontation (noun); grapple with

contaminate
verb Band 7
загрязнять, заражать

To make something dirty or poisonous with harmful substances.
Leaking fuel tanks can contaminate drinking water for an entire village.
COLLOCATIONS contaminate water/soil; contaminate with chemicals
UPGRADE pollute; taint

dispose of
verb Band 7
избавляться от, утилизировать

To get rid of something, especially waste.
Hospitals must dispose of medical waste in specially licensed facilities.
COLLOCATIONS dispose of waste safely; dispose of rubbish
UPGRADE disposable (adj); discard

dump
verb Band 6
сбрасывать, выбрасывать (мусор)

To get rid of something carelessly in an unsuitable place.
Factories that dump chemical waste into the Tobol River should face far heavier penalties than at present.
COLLOCATIONS dump waste/rubbish; illegally dump
UPGRADE fly-tipping (noun); discharge

threaten
verb Band 6
угрожать

To be likely to harm or damage something.
Uncontrolled hunting continues to threaten the survival of the saiga antelope.
COLLOCATIONS threaten the survival of; threaten to destroy
UPGRADE endanger; jeopardise

inexorably
adv Band 8
неумолимо, неуклонно

In a way that cannot be stopped or prevented.
Global temperatures are rising inexorably as emissions continue to climb.
COLLOCATIONS move/rise inexorably; inexorably linked
UPGRADE inexorable (adj); relentlessly

inevitably
adv Band 7
неизбежно

In a way that is certain to happen and cannot be avoided.
As cities expand, green spaces inevitably come under pressure from developers.
COLLOCATIONS inevitably lead to; almost inevitably
UPGRADE inevitable (adj); unavoidably

16. Energy

50 words

atmosphere
noun Band 6
атмосфера

The layer of gases surrounding the Earth.
Carbon dioxide can remain in the atmosphere for hundreds of years after it is released.
COLLOCATIONS the Earth's atmosphere; release into the atmosphere
UPGRADE atmospheric (adj); atmospheric concentrations of CO2

balance
noun Band 6
баланс, равновесие

A state where different elements are in correct proportions.
Policymakers must strike a balance between affordable energy and environmental protection.
COLLOCATIONS strike a balance; upset the balance
UPGRADE equilibrium; an ecological balance

biofuel
noun Band 7
биотопливо

Fuel produced from plants or organic waste.
Growing crops for biofuel can drive up food prices in poorer countries.
COLLOCATIONS biofuel production; second-generation biofuel
UPGRADE biomass; bioethanol

carbon
noun Band 6
углерод

A chemical element found in fuels; often refers to carbon emissions.
Forests and peatlands store enormous quantities of carbon that are released when burned.
COLLOCATIONS carbon footprint; carbon emissions
UPGRADE carbon-neutral; decarbonise (verb)

carbon dioxide
noun Band 6
углекислый газ, диоксид углерода

A gas produced by burning fuel and by breathing; CO2.
Cement production alone accounts for around eight percent of global carbon dioxide output.
COLLOCATIONS emit carbon dioxide; levels of carbon dioxide
UPGRADE carbon capture and storage

crisis
noun Band 5
кризис

A time of great danger or difficulty needing urgent action.
The energy crisis forced many European households to choose between heating and eating.
COLLOCATIONS energy/economic crisis; face a crisis
UPGRADE avert a crisis; in the throes of a crisis

electricity
noun Band 5
электричество, электроэнергия

Energy supplied through wires for light, heat and machines.
Most of Kazakhstan's electricity is still generated by burning domestic coal.
COLLOCATIONS generate electricity; electricity supply
UPGRADE power generation; the national grid

emissions
noun Band 6
выбросы

Gases or other substances released into the air.
Aviation emissions are growing faster than those of almost any other sector.
COLLOCATIONS reduce/cut emissions; carbon emissions
UPGRADE curb emissions; net-zero emissions

exhaust
noun Band 6
выхлоп, выхлопные газы; выхлопная труба

Waste gas released from an engine; also the pipe carrying it.
Black smoke poured from the exhaust of the ageing bus as it climbed the hill.
COLLOCATIONS exhaust pipe; car exhaust
UPGRADE tailpipe emissions

fossil fuel
noun Band 6
ископаемое топливо

A fuel such as coal, oil or gas formed from ancient organisms.
Any economy heavily dependent on a single fossil fuel is vulnerable to price shocks.
COLLOCATIONS burn fossil fuels; dependence on fossil fuels
UPGRADE phase out fossil fuels; hydrocarbons

fuel
noun Band 5
топливо, горючее

A substance burned to produce heat or power.
Rising fuel costs have pushed many commuters towards public transport.
COLLOCATIONS fuel prices; fuel consumption
UPGRADE fuel efficiency; add fuel to the fire (idiom)

fumes
noun Band 6
пары, испарения, дым

Strong-smelling gas or smoke, often harmful to breathe.
Petrol station attendants are exposed to harmful fumes throughout their shifts.
COLLOCATIONS petrol/diesel fumes; toxic fumes
UPGRADE noxious fumes; airborne pollutants

gas
noun Band 5
газ

Natural gas used as fuel; any air-like substance.
Switching from coal to gas can halve a power station's carbon emissions.
COLLOCATIONS natural gas; gas reserves
UPGRADE liquefied natural gas (LNG); gas pipeline

greenhouse gas
noun Band 6
парниковый газ

A gas that traps heat in the Earth's atmosphere.
Methane is a far more potent greenhouse gas than carbon dioxide over a twenty-year period.
COLLOCATIONS greenhouse gas emissions; potent greenhouse gas
UPGRADE global warming potential

hybrid
noun Band 7
гибрид (гибридный автомобиль)

A vehicle powered by both petrol and an electric motor.
Taxi firms in Astana are gradually replacing their fleets with hybrids, though a hybrid costs more upfront.
COLLOCATIONS plug-in hybrid; hybrid vehicle
UPGRADE hybrid technology; a hybrid of two systems

hydrogen
noun Band 7
водород

The lightest gas, which can be used as a clean fuel.
Green hydrogen, produced using renewable electricity, could decarbonise heavy industry.
COLLOCATIONS hydrogen fuel cell; green hydrogen
UPGRADE hydrogen economy

petrol
noun Band 5
бензин

Liquid fuel made from oil, used in car engines.
Subsidised petrol keeps driving cheap but discourages investment in cleaner alternatives.
COLLOCATIONS petrol prices; petrol station
UPGRADE gasoline (US); petrol-powered

resources
noun Band 6
ресурсы

Supplies of natural materials, such as oil, water or minerals.
The country's wealth rests heavily on its natural resources, especially oil and uranium.
COLLOCATIONS natural resources; finite/scarce resources
UPGRADE deplete finite resources; resource-rich

turbine
noun Band 7
турбина

A machine with blades turned by wind, water or steam to generate power.
Each new wind turbine on the steppe can supply electricity to hundreds of homes.
COLLOCATIONS wind turbine; gas turbine
UPGRADE offshore wind farm

vehicle
noun Band 6
транспортное средство

A machine such as a car, bus or lorry used for transport.
Electric vehicle sales have risen sharply wherever charging networks have expanded.
COLLOCATIONS electric vehicle; motor vehicle
UPGRADE zero-emission vehicle; vehicular traffic

alternative
adj Band 6
альтернативный

Different from the usual or traditional kind, especially non-fossil energy.
Investment in alternative energy has tripled in Central Asia over the past decade.
COLLOCATIONS alternative energy/fuel; alternative sources
UPGRADE a viable alternative (noun); unconventional

critical
adj Band 6
критический, решающий

Extremely important at a decisive moment; or very serious.
The next ten years will be critical in determining whether warming can be limited to 1.5°C.
COLLOCATIONS critical role; at a critical stage
UPGRADE pivotal; crucial

disposable
adj Band 6
одноразовый

Designed to be thrown away after one use.
Disposable batteries contain heavy metals that leak into landfill sites.
COLLOCATIONS disposable cups/plastic; disposable products
UPGRADE single-use; throwaway culture

drastic
adj Band 7
радикальный, решительный, резкий

Extreme and sudden, with a very strong effect.
Without drastic cuts in energy use, the target will be missed by a wide margin.
COLLOCATIONS drastic measures/action; drastic reduction
UPGRADE drastically (adv); sweeping changes

eco-friendly
adj Band 6
экологичный, экологически чистый

Not harmful to the environment.
The new eco-friendly office building generates more energy than it consumes.
COLLOCATIONS eco-friendly products; eco-friendly design
UPGRADE environmentally benign; low-carbon

efficient
adj Band 6
эффективный, экономичный

Working well without wasting energy, time or money.
Modern LED bulbs are far more efficient than traditional incandescent ones.
COLLOCATIONS energy-efficient; highly efficient
UPGRADE efficiency (noun); fuel-efficient

effective
adj Band 5
действенный, эффективный

Successful in producing the intended result.
A carbon tax has proved the most effective tool for reducing industrial emissions in Scandinavia.
COLLOCATIONS highly effective; effective measures
UPGRADE cost-effective; effectiveness (noun)

environmentally friendly
adj Band 6
экологичный, безвредный для окружающей среды

Causing little or no harm to nature.
Cycling is the most environmentally friendly way to commute short distances.
COLLOCATIONS environmentally friendly fuel/technology
UPGRADE sustainable; green credentials

---

nuclear
adj Band 6
ядерный, атомный

Relating to energy produced by splitting atoms.
Kazakhstan's referendum on building its first nuclear power plant divided public opinion.
COLLOCATIONS nuclear power/energy; nuclear waste
UPGRADE nuclear reactor; decommission a nuclear plant

---

rechargeable
adj Band 6
перезаряжаемый, аккумуляторный

Able to be filled with electrical power again after use.
Switching to rechargeable batteries significantly reduces household hazardous waste.
COLLOCATIONS rechargeable battery; rechargeable device
UPGRADE lithium-ion; reusable

---

renewable
adj Band 6
возобновляемый

Naturally replaced, so it will not run out.
Renewable sources supplied a record share of the nation's power last year.
COLLOCATIONS renewable energy; renewable resources
UPGRADE renewables (noun); non-renewable

---

solar
adj Band 5
солнечный

Relating to or using energy from the sun.
Rooftop solar panels are becoming affordable for ordinary homeowners in Shymkent.
COLLOCATIONS solar power/energy; solar panel
UPGRADE photovoltaic; solar farm

---

unleaded petrol
adj Band 7
неэтилированный (бензин)

Fuel without added lead, which is less harmful to health.
The nationwide switch to unleaded petrol led to a measurable drop in children's blood-lead levels.
COLLOCATIONS unleaded fuel; switch to unleaded
UPGRADE lead-free; low-sulphur fuel

---

absorb
verb Band 6
поглощать, впитывать

To take in a liquid, gas or energy.
Oceans absorb roughly a quarter of the carbon dioxide humans release each year.
COLLOCATIONS absorb carbon/heat; absorb water
UPGRADE absorption (noun); absorbent (adj)

---

conserve
verb Band 7
сберегать, экономить; сохранять

To use something carefully so it is not wasted.
Households can conserve energy simply by lowering thermostats by a degree or two.
COLLOCATIONS conserve energy/water; conserve resources
UPGRADE conservation (noun); conservationist

---

consume
verb Band 6
потреблять, расходовать

To use up fuel, energy or resources.
Data centres now consume more electricity than some small countries.
COLLOCATIONS consume energy/fuel; consume resources
UPGRADE consumption (noun); energy-hungry

---

convert
verb Band 6
преобразовывать, превращать

To change something into a different form or use.
Solar cells convert sunlight directly into electricity without moving parts.
COLLOCATIONS convert into/to; convert energy
UPGRADE conversion (noun); harness energy

counter
verb Band 7
противодействовать, противостоять

To act against something to reduce its negative effects.
Governments are planting shelter belts to counter the spread of desertification.
COLLOCATIONS counter the effects of; counter a threat
UPGRADE counteract; offset

deplete
verb Band 8
истощать, исчерпывать

To reduce the amount of something until little remains.
Intensive irrigation continues to deplete underground aquifers faster than they can recharge.
COLLOCATIONS deplete resources/reserves; severely deplete
UPGRADE depletion (noun); ozone depletion

diminish
verb Band 7
уменьшать(ся), сокращать(ся)

To become or make smaller, weaker or less important.
Oil reserves in mature fields diminish steadily, making extraction ever more costly.
COLLOCATIONS diminish rapidly; diminishing returns
UPGRADE dwindle; wane

discharge
verb Band 8
сбрасывать, выпускать (отходы, жидкость)

To release a liquid or gas into the environment.
Factories that discharge untreated wastewater into rivers now face heavy fines.
COLLOCATIONS discharge waste/effluent; discharge into the sea
UPGRADE effluent (noun); discharge (noun)

dwindle
verb Band 8
сокращаться, истощаться

To gradually become smaller in number or amount.
As coal seams dwindle, mining towns must find new sources of employment.
COLLOCATIONS dwindling supplies/reserves; dwindle away
UPGRADE dwindling (adj); diminish

emit
verb Band 7
выделять, испускать, выбрасывать

To send out gas, heat, light or sound.
Older coal plants emit far more sulphur dioxide than modern gas-fired stations.
COLLOCATIONS emit carbon dioxide; emit radiation
UPGRADE emission (noun); release into the atmosphere

expend
verb Band 8
расходовать, затрачивать

To use up energy, effort, time or money.
Desalination plants expend vast amounts of energy to produce fresh water.
COLLOCATIONS expend energy/effort; expend resources
UPGRADE expenditure (noun); expenditure of energy

limit
verb Band 5
ограничивать

To control something so it does not go beyond a certain amount.
The Paris Agreement aims to limit warming to well below two degrees.
COLLOCATIONS limit emissions; strictly limit
UPGRADE restrict; curb

maintain
verb Band 6
поддерживать, сохранять

To keep something at the same level or in good condition.
Ageing power grids are costly to maintain and prone to frequent outages.
COLLOCATIONS maintain supply; maintain a balance
UPGRADE maintenance (noun); sustain

outweigh
verb Band 7
перевешивать, превосходить

To be greater or more important than something else.
For most homeowners, the long-term savings of insulation far outweigh the initial cost.
COLLOCATIONS benefits outweigh the costs; far outweigh
UPGRADE the pros outweigh the cons; offset

preserve
verb Band 6
сохранять, оберегать

To protect something so it stays in its original state.
Strict zoning laws help preserve green belts around rapidly growing cities.
COLLOCATIONS preserve the environment; preserve natural habitats
UPGRADE preservation (noun); safeguard

retain
verb Band 7
удерживать, сохранять

To keep or continue to hold something.
Well-insulated walls retain heat far longer during Kostanay's harsh winters.
COLLOCATIONS retain heat/water; retain control
UPGRADE retention (noun); heat retention

waste
verb Band 5
тратить впустую, расточать

To use something carelessly or more than necessary.
Leaving appliances on standby can waste a surprising amount of electricity each year.
COLLOCATIONS waste energy/resources; waste money
UPGRADE squander; fritter away

17. Business

79 words

advertisement
noun Band 5
реклама, рекламное объявление

A notice, picture or short film that promotes a product or service.
The advertisement was withdrawn after regulators ruled that its health claims were misleading.
COLLOCATIONS place an advertisement; a television advertisement

Employees are far more likely to stay when their boss offers regular, constructive feedback.
COLLOCATIONS demanding boss; report to your boss
UPGRADE line manager; immediate superior

campaign
noun Band 6
кампания

A planned series of activities designed to achieve a particular commercial or social aim.
The company's latest marketing campaign tripled online sales within a single quarter.
COLLOCATIONS launch a campaign; advertising campaign
UPGRADE a sustained, high-profile campaign; to spearhead a campaign

candidate
noun Band 6
кандидат

A person who is being considered for a job or position.
The panel shortlisted only one candidate whose experience genuinely matched the role.
COLLOCATIONS suitable candidate; shortlist candidates
UPGRADE a strong contender; the successful applicant

career
noun Band 5
карьера

The series of jobs a person does in one field over their working life.
Many graduates now expect a career that combines financial security with a sense of purpose.
COLLOCATIONS pursue a career; career prospects
UPGRADE career trajectory; a career change later in life

clerk
